Rendra Pradana

Web Designer + Developer

As a developer, I enjoy creating beautiful, responsive and intuitive front-end design. Aside from web development, I enjoy spending my time with my wife and my son, travelling and taking photos

Work Experience

Independent Front-end Developer & Educator
INDEPENDENT / FREELANCE
January 2012 - Present
Provides various front-end related services ranging from development work, consultations and courses.

Director of Curriculum
JAKARTA LEARNING CODE
July 2014 - February 2016

Created and managed all adult focused curriculum, instructor training and tech related strategies and duties.

Key contributions:

- Created 9 new workshops focusing on HTML, CSS, JavaScript, jQuery, Wordpress and Responsive Web Design.
- Created all Hackapalooza content (2 day conference style event), consisting of 2-4 hour workshop sessions focused on front-end coding languages and web development related topics.
- Lead instructor and created curriculum for the Digital Skills part-time program.
- Provided training for all instructors, in all Canadian chapters, focusing on creating an inclusive and engaging learning environment.
- Maintained the ladieslearningcode.com website.
- Created interactive slide deck template for consistent national workshop branding.
- Volunteer lead instructor from 2011-2014 for Toronto workshops and several chapter launches.

Lead Front-End Developer
DLIGHT DIGITAL
March 2013 - February 2014
Lead the front-end development for in-house safety inspection software.

Key contributions:

- Responsible for recommendations, setting code standards for the front-end development.
- Created a fully customized front-end framework, including UI/UX.
- Standardized the site architecture and design. The framework contains reusable components and extensible classes for customization and flexibility.
